Organic Concrete - Mortar - Grout Dissolving Agent

Safe on metal, painted and plastic surfaces. The small molecular size of **InsideOut** allows it to penetrate deep inside concrete residues and react from within.

- **Readily Biodegradable >7 days - 90%**
- **Meets ASTM G-31-72, Non-corrosive**
- **Replaces Harsh & Dangerous Acids - SAFER**
- **D.O.T. Non-Regulated**
- **Cost Effective - Dilutable 4:1**

**Xtremely Effective Dissolving Cement, Mortar, Grout containing:**
- Portland blast furnace cement
- Portland fly ash cement
- Portland silica fume cement
- Masonry cements (mortars, stuccos)
- Expansive cements
- White blended cements
- Non-Portland slag-lime cements
- Non-Portland super sulfated cements
- Non-Portland Pozzolan-lime cements
- Non-Portland calcium aluminate and Sulfoaluminate cements

Made in the United States of America
